

The Capresso 600

A state of the art, touch screen, fully automatic in-cup drinks machine. Ideal for larger volume sites, minimal cleaning is required for the operator as the drinks are pre-filled in the cup.

The Capresso 600's stylish touch screen technology allows the user to upload several video/picture messages.

An extensive use of stainless steel provides a modern black textured finish whilst ensuring that the Capresso 600 is robust enough for the industrial shop floor.
