The SEVILLE

The very latest development in our extremely highly regarded, market leading, loose ingredient dispenser machine range. Now FULLY AUTOMATIC in operation, this exceptional new machine perfectly combines the cost effectiveness of a "traditional" vending machine with the ultimate convenience and extremely low maintenance requirements of an In-cup.

The ingenious nature of the Seville machine utilises a fully automatic cup transfer mechanism which collects measured doses of each required ingredient and then delivers the cup with the completed recipe inside to the illuminated serving station, where water is finally added to complete the drink.

Seville shown with matching base cabinet

Seville partnered with the Waterboy rehydration station

DRINK SELECTION

The fully automatic Seville can offer users a choice of up to 8 different drink selections and comes complete with a unique graphical strength adjustment feature as standard.

Drink recipes are prepared from 6 large capacity ingredient canisters - sugar can be included as a pre-select option if required.

The internal cup management system features a fully automatic restocking system and can hold a massive 700 cups.

Seville (shown here both featuring optional Kenco livery) partnered with the SnackBreak MINI - the ideal "pick me up" station

Seville (shown here featuring optional Gold Blend livery) partnered with the IceBreak can machine - a superb total refreshment solution

OTHER FEATURES

Fully automatic - dispenses complete drink.

Brightly illuminated, electronically controlled cup station with self opening and closing door.

Absolutely minimal cleaning and maintenance requirement - just like in-cup!

Optional cold and chilled drinks.

Graphical strength adjustment feature enables users to "fine tune" taste preferences.

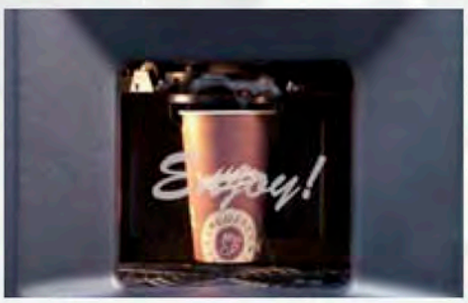
Internal cup management system compatible with both paper and plastic cups including larger (9oz) variants.

Ultra simple to operate, refill and maintain.

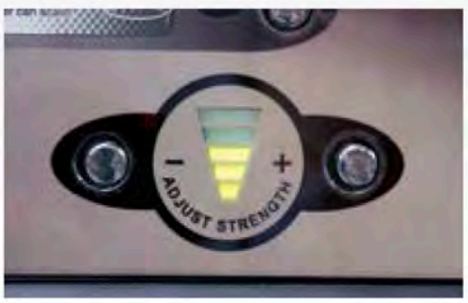
Optional chocolate sprinkle feature - the perfect finish to a delicious cappuccino.

The Seville by DarenthMJS is the very latest development in our market leading loose ingredient dispenser machine range. Now FULLY AUTOMATIC in operation this exceptional new machine perfectly combines the cost effectiveness of a "traditional" vending machine with the ultimate convenience and extremely low maintenance requirements previously only available for the in-cup system.

Easily refillable ingredient canisters



Fully automatic, brightly illuminated serving point



Unique graphical strength adjustment feature

The Seville is available in a range of graphics and branding options. Please ask your DarenthMJS authorized dealer for latest details.

The SEVILLE
